In Next: The Future Just Happened — which consists of four essays that percolate with insight — journalist Lewis investigates the unexpected inversions of power, time, and identity that the Internet’s “vast new social world” have wrought. He’s particularly fascinated by adolescents who have gained the edge on adults....

Next: The Future Just Happened book by Michael Lewis
So when I heard the buzz on Michael Lewis' Next: The Future Just Happened, it was an instant "One-Click"! What I found was a book that overstates and oversells its thesis, but is still a valuable look at how the Web is beginning to affect our culture in unanticipated ways. This is not a scholarly effort by any means.
