research center is built around five broad science themes: Paleoclimate & Paleoecology, Landscape Science, Geologic Mapping, Hazards, and Special Geologic Studies.

Florence Bascom Geoscience Center - USGS.gov
Index contour lines: Every fifth contour line is a thicker, "index" line. At some point along that line, its exact elevation is listed. Contour interval: The change in elevation from one contour line to the next is always the same within the same map. Many maps have either a 40- or 80-foot contour interval: An 80-foot interval simply means that each contour line is 80 vertical feet away from ...
